Nanotechnology-Explorer Magazine – August-2010

Dear Sir / Madam,

I am very glad to inform you all with great pleasure that IACQER is launching three Magazines for Engineers and Science students and researchers in the field of Computers, Electronics, Electrical and Mechanical from the month of October. The articles will be included in these magazines will cover various subjects of the respective fields. We would like Academicians, Scientist, Engineers and Technologists to share the research experience and to enlighten the upcoming researchers and students. Further, it will be a great pleasure to receive the articles from the students and researchers. It will overwhelm for us to publish your innovative and your excellence through your articles

IACQER assures students for full encouragement and support for building their innovative ideas into realities as.

Once again I would kindly request to all for submitting your research manuscripts to IACQER Journals, review articles, announcements of conferences and association/collaboration of conference/seminar/workshop with IACQER.

With Best Regards,

Dr. Edmund Samuel,
IACQER, Nanotechnology Laboratory of Biosensor,

INTERNATIONAL
EDUCATION STANDARDS

International Accreditation Council of Quality Education and Research

IACQER-eMagazine Invites Articles
For October-2010 Issues

**Articles on following topics
are invited**

- Artificial Intelligence
- Swarm Intelligence
- Genetic Algorithms
- Real Time systems
- Network Security
- Computer Graphics
- Virtual Reality
- Mobile Computing
- Data Engineering

The articles will be published in the
following magazine

• **Excellence**
of Computer engineering

Articles Submitted by August 31, 2010 will be
published in October issue.

Articles Submitted after August 31, 2010 will be
published in the later is-

**Note: The articles will be published after
reviewing**

The prepared article should be sent to: iacqermagazine@rediffmail.com

About IACQER,

International Accreditation Council of Quality Education and Research is global proficient association to inspire an Engineers and Technologists to create an innovative and better Society.

Vision

To Improve the Quality of life of the common man through quality education and research.

Mission

To reach each and every corner of the world to serve the humanity.

Activities of the Council

With a Nobel Vision and Mission the activities of IACQER are being carried out to:

- Strengthen the skills of engineers to make them shoot the problem of common man.
- Accredite the credentials of professional engineers and issue them the International Identity card
- Maintain the professional history of members to help them at the international platforms
- Guide research and monitoring research activities in national/international institutions
- Support the institutions to raise research infrastructure
- Extend Technical and economical support in raising research based manufacturing units
- Coordinate national and international inter-institutional collaborations
- Publish research journals
- Research awards to administrators, researchers and organizations

About IACQER Magazines

IACQER is starting the three magazines in the field of

- Computer Engineering,
- Electrical, Electronics & telecommunication Engineering
- Mechanical Engineering.

These magazines will includes the innovative and informative articles from the experts, academicians, scientists, industrial professionals, researchers of their respective fields. As well as from the students of the Science and Engineering. These magazines focus on providing a good platform for learning of the Bachelor's and Master's degree students and knowledge sharing from the academicians, scientists, and professionals with their innovative ideas and encouragement for the young students and research to work enthusiastically in their respective specialized areas.

Guidelines:

The article should be typed on A4 size paper with margin of 1" on all sides, using Times New Roman font. (1) Title of the paper, Font 13 Bold, (2) Name, affiliation, and email of corresponding author, Font 10, (3) Corresponding author should be indicated by *. The text should start two spaces below the address (normal font size 12, justified in 1 line spacing). The text should include complete and proper presentation of a subject. The figures should have a good resolution

Note: The article should not exceed more then three pages.

IACQER-eMagazine Invites Articles
For October-2010 Issues

Articles on following
topics are invited

- VLSI
- Robotics
- Embedded
- Optoelectronics devices
- Advance communication
- Virtual Instrumentation
- Nano-scale device modelling

The articles will be published in the
following magazine.

•Excellence
of Electrical, Electronic and
communication Engineering

Articles Submitted by August 31, 2010 will be published in October issue.

Articles Submitted after August 31, 2010 will be published in the later issue.

Note: The articles will be published after reviewing only

The prepared article should be sent to: iacqermagazine@rediffmail.com
